

BELOW DECK PS CABINET

KASSEL's PS top filling soap dispenser kit is the ideal solution for our touch free soap dispensers in heavy traffic areas. The multifeed system simultaneously supplies liquid soap to up to 6 soap dispensers reducing costs and maintenance requirements. The kit includes a 6 Liter soap tank and can also be supplied with a 1 Liter bottle, upon request. It is powered by a 12V transformer and incorporates an optional top filling mechanism with a high quality chrome plated anti-theft cover. The kit is suitable for use with our wall and deck-mounted soap dispenser models and is simple, clean and quick to install. A Stainless Steel support is provided for fitting the soap dispenser tank below the counter. Also available is a wooden multifeed cabinet with white front panel and oak frame that provides support for your soap dispenser tank and hides unsightly pipes and connectors from the view of users keeping your commercial restroom neat and tidy.
