TOUCH-FREE ELECTRONIC FAUCET

SPECIFICATIONS

Thermostatic and touch free electronic faucet for deck mounted installations. Activated by an infrared sensor. Thermostatic mixer located in the faucet cap. Filters included. Chrome plated body, other finishes available. Includes a low battery indicator. Latching solenoid valve is located inside the faucet making it more resistant to vandalism. Installed as a regular faucet, simply connect the battery to complete the installation. The following settings can be customized by using the optional remote control: sensor range, security time, delay in, delay out and on-off. A 24 hour mandatory hygiene flush can be activated upon request.

OPERATION

Touch free electronic faucet. The faucet is activated automatically when the users bring their hands within the sensor range and deactivates upon removal.

APPLICATION

Enables patients and medical personnel to wash their hands without touching the faucet: preventing cross contamination. Helps washrooms to stay clean. Ideal for hospitals, laboratories, dental clinics and commercial kitchens.
