

CORELLA DÚO

ELECTRONIC TOUCH FREE SHOWER CONTROL

SPECIFICATIONS

Touch-free electronic shower control. Operated by infrared sensor. With a mixer for water temperature adjustment for hot and cold water. Powered by a 9V battery or a 9V transformer. Battery version includes a low battery indicator included. Non return valves, filters and Thermostop at 38° included. All components are located inside the body for added vandal protection. Auto shutoff after 120 seconds of use. Adjustable settings by remote control: sensor range, security time, delay out, on-off and reset to factory settings.

OPERATION

Touch free electronic shower control. The shower would be activated once the user steps within the sensor range.

APPLICATION

Combines an elegant design with high quality into a vandal resistant product. Helps washrooms to stay hygienic, safe and water saving. Ideal for sport facilities and spas.
