

FLAMINGO SIDE INLET

TOUCH-FREE ELECTRONIC FLUSH VALVE FOR WC

SPECIFICATIONS

Touch-free electronic flush valve with a mechanical override button. Activated by infrared sensor. Shut-off valve and filter are included. Powered by a 9V battery or a 9V transformer. Battery versions include a low battery level indicator. With a 24-hour hygiene flush. Adjustable settings by remote control: sensor range, security time, delay in, delay out, on-off and reset to factory settings. Low consumption options and pre-flush operation are available upon request.

OPERATION

Touch-free electronic flush valve for W.C. Water will flush once the user moves away from the W.C.

APPLICATION

Helps washrooms stay clean and saves water. Ideal for educational institutions, gas stations, restaurants. In addition, its minimalistic style makes it perfect for any locations with high design standards.
