

FROST I

TOUCH ELECTRONIC LAVATORY FAUCET

SPECIFICATIONS

Electronic self-closing glass filler faucet. Activated by touching the designated piezo base. For cold or premixed water. Available with an external 9 V battery or a 9 V transformer. Filter included. Available with long reach spout. The glass filler will automatically shut off after a flow time of 15 seconds. Flow time is adjustable on site.

OPERATION

Touch-activated electronic faucet. The faucet automatically activates when users touch the designated area and stops after a 15 second flow cycle. The flow can be shut off manually before the cycle is over with a second touch. The flow cycle can be adjusted on site for specific size glasses or containers.

APPLICATION

Deck mounted glass or bottle-filler with easy touch activation to allow use by young children, the elderly and the disabled. Ideal for drinking fountains, coolers and water stations. Designed for bars, restaurants and commercial kitchens.
