

**OPTIMIZING
HAND
HYGIENE
IN PUBLIC
SPACES**

KASSEL SANITÄR SL is committed to the environment.

The awareness and importance of water saving and conservation has increased in recent decades. Many countries promote sustainable water consumption and propose measures for rational water use.

KASSEL SANITÄR, aware of these needs, offers efficient solutions for sanitary products: water and energy saving with no impact to user comfort, well designed and high quality products,

Based on infrared sensor technology (Contact Free) or piezoelectric (Touch), Kassel products suit the needs of industries like health centers, hospitals, hotels, shopping centers, restaurants, airports, gyms and offices, among others. Offering a wide range of solutions for sinks, toilets, urinals and showers, specially designed to accommodate locations where hygiene requirements, savings, convenience and safety are highly important. Kassel also develops products for the residential sector, combining new technologies and providing the user a sense of comfort and elegance without neglecting saving and rational use of water and energy.

All Kassel products are specially designed to help save and conserve our most precious resource: water.

CUIDA DE TI, CUIDA DEL AGUA

OUR FINEST FINISHES

MIX AND MATCH WITH A SPLASH OF COLORFUL SPECIAL FINISHES
TO PERFECTLY BLEND WITH YOUR DESIGN

POLISHED CHROME

Resistant to rust and corrosion, chrome is cost-effective and easy to clean.

MATT BLACK

Our trendy, durable, scratch-resistant, matt-black finish makes your modern design bolder and makes your classic design current.

PVD BRUSHED NICKEL

Popular for its “stainless steel” appearance, PVD Brushed Nickel creates a sophisticated and cool look that hides fingerprints and water spots.

PVD ANTIQUE BRONZE

Dramatic and striking, antique bronze lifts the ambiance with a touch of texture.

PVD COPPER

A velvety effect that goes well with contemporary and industrial styles.

PVD SATIN GOLD

Classic, warm and bold, satin gold has that unique “je ne sais quoi” to make it stand out.

PVD GUN METAL

Inspired by rifle barrels with a sheen that’s not quite matte and not quite shiny, gunmetal faucets add an interesting touch to any design, particularly when paired with industrial elements.

TOUCH-FREE ELECTRONIC FAUCETS

1-26

Our touch-free electronic products are operated by an infrared (IR) sensor technology which allows activation without touching the product. This eliminates a potential source of cross contamination and spread of germs.

The combination of our faucets and soap dispensers provide a perfect, clean, automated and germ-free environment at public restrooms.

SINTRA TWINS

NEW

ELECTRONIC LAVATORY FAUCET AND SOAP DISPENSER
OPERATED BY IR SENSOR

SPECIFICATIONS

Touch-free deck-mounted electronic faucet and soap dispenser in a single unit that are activated by concealed sensors built into the spouts.

ABOUT THE FAUCET: For cold or premixed water. Activated by concealed sensors built into the spout. Filter included. Powered by 12V transformer (battery operated version available upon request.) The following functions can be performed using the optional remote control: faucet sensor range, security time, delay in, delay out, on-off and reset to factory settings.

ABOUT THE SOAP DISPENSER: Closes automatically without dripping. Includes a 1 liter soap bottle and bottle support for the soap dispenser. Powered by 12V transformer (battery operated version available upon request.) Peristaltic pump that allows the use of any kind of liquid soap, detergent or antibacterial gel. The following functions can be performed using the optional remote control: Soap quantity selection, soap tank refill, temporary off and back to factory settings.

OPERATION & APPLICATION

The SINTRA TWINS unit is suitable for commercial restrooms where there is only one deck opening at the basin. The touch free faucet and soap dispenser unit is automatically activated when users place their hands in the relevant sensor range and stops when the users remove their hands. Easy installation and great for retrofit where drilling a new basin opening is not an option. Long lasting even in the harshest installation sites. Helps washrooms stay clean and saves water and soap. Prevents cross contamination. Combines an elegant design with vandal-resistant features. Ideal for offices, hotels and restaurants and all commercial restroom environments.

PICTURE	PRODUCT NAME	MODEL FEATURES	POWER SUPPLY	CODE NUMBER	DRAWING
	SINTRA TWINS	Faucet powered with IP67 dual power input box that allows the product to be used with 9V battery as an option. If the faucet is powered by 9V battery, the soap dispenser can be powered either by battery (with battery box for SD - optional upon request), or with 12V transformer supplied with the product.	12V transformer	KSL01023	

TECHNICAL DATA	
Installation	Deck mounted
Material	Chrome plated brass, other finishes available.
Water supply	Cold or premixed water
Flow restrictor	0.5 GPM / 1.89 LPM - PCA spray 1.0 GPM / 4 LPM - PCA spray
Security time	The faucet will automatically shut off after a 90 seconds flow time has passed. Adjustable with the remote control.
Operating water pressure	0.5 - 8.0 bar
Power source options	12 V transformer, battery upon request
Soap Dose	Soap Dispenser : Factory setting for 0.7 to 0.9 cc depending on the selected soap. The soap quantity can be changed using the remote control for soap dispensers. Delivers liquid soap. 1 liter soap bottle.

SINTRA SERIES

NEW

DECK-MOUNTED TOUCH-FREE LAVATORY FAUCET

SPECIFICATIONS

Touch-free deck-mounted electronic faucet. Chrome plated body, other finishes available. Activated by concealed sensor built into the spout. Filter included. Sensor includes a low battery indicator. Adjustable settings by remote control: sensor range, security time, delay in, delay out, on-off and reset to factory settings.

It features a IP67 dual power input box that allows the faucet to be used with 9 V battery or 9 V transformer. It can be powered by a 9 V transformer and an integrated back-up system to be used with a 9 V lithium battery enabling the faucet to be used normally in case of power failure.

OPERATION

Touch-free electronic faucet. The faucet is automatically activated when users place their hands in the sensor range and stops when the users remove their hands.

APPLICATION

Combining an elegant design with vandal-resistant features. Easy installation. Long lasting even in the harshest installation sites. Helps washrooms stay clean and saves water. Prevents cross contamination. Ideal for offices, hotels and restaurants.

MIRANDA SERIES

DECK-MOUNTED TOUCH-FREE LAVATORY FAUCET

FEATURES:

- 100 % chrome plated brass body, other finishes available upon request
- For Cold or premixed water / Cold and hot water
- IR sensor
- Low battery indicator
- Internal solenoid valve
- Versions with longer spout available

OPTIONS:

- Remote control

ADVANTAGES:

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Modern, uncompromisingly minimalistic with no disruptive elements
- Sensor settings adjustable by remote control
- Easy installation
- Matching IR operated soap dispenser

TECHNICAL DATA	
Water temperature	Cold or premixed water / Cold and hot water
Flow restrictor	6 l/min. 1.89 l/min and other options available

Operating water pressure	0.5 - 8.0 bar
Power source options	MORELLA WALL MOUNTED: • Battery box for 6 x 1.5 V D alkaline batteries • 9V transformer MORELLA: • 9V battery box • 9V transformer Powered by an external IP67 dual power input box , this faucet can be used with a 9V battery or a 9V transformer. It can also be operated with a 9V transformer and an integrated backup system working with a 9V lithium battery which enables the faucet to function normally in case of a power failure. MORELLA BOX: • 9V battery box • 9V transformer

PETRA Q

WALL-MOUNTED TOUCH-FREE LAVATORY FAUCET

FEATURES:

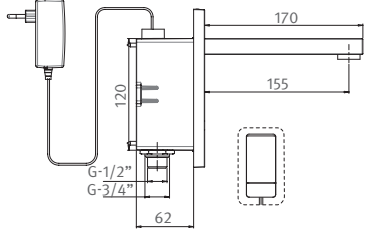

- 100 % chrome plated brass
- IR sensor
- Low battery indicator
- For concrete or brick walls

OPTIONS:

- Remote control

ADVANTAGES:

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Concealed installation, all components inside the box which makes it serviceable from the front.
- Sensor settings adjustable by remote control
- Matching flush valves for toilets and urinals
- Easy installation

PICTURE	PRODUCT NAME	MODEL FEATURES	POWER SUPPLY	CODE NUMBER	DRAWING

MIRANDA N WALL MOUNTED SERIES

WALL-MOUNTED TOUCH-FREE LAVATORY FAUCET

FEATURES:

- 100 % chrome plated brass body, other finishes available upon request
- 100 % chrome plated brass body
- Operated by IR sensor
- Low battery indicator
- Anti-rotation pin for extra robustness at heavy duty locations
- For plaster/dry and concrete/brick walls
- Available in Stainless Steel AISI316 body upon request

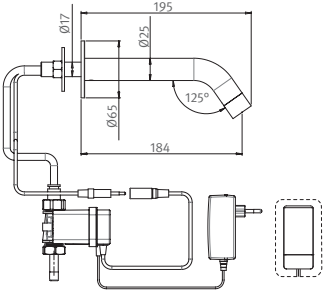

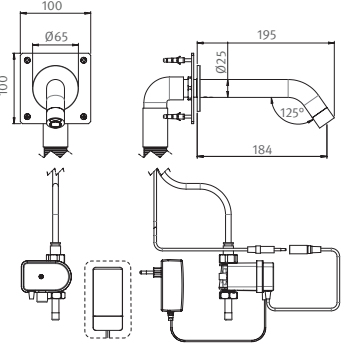

OPTIONS:

- Remote control

ADVANTAGES:

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Modern, uncompromisingly minimalistic with no disruptive elements
- Sensor settings adjustable by remote control
- Easy installation
- Matching IR operated soap dispenser

OUR FINEST FINISHES

MIX AND MATCH WITH A SPLASH OF COLORFUL SPECIAL FINISHES
TO PERFECTLY BLEND WITH YOUR DESIGN

POLISHED CHROME

Resistant to rust and corrosion, chrome is cost-effective and easy to clean.

MATT BLACK

Our trendy, durable, scratch-resistant, matt-black finish makes your modern design bolder and makes your classic design current.

PVD ANTIQUE BRONZE

Dramatic and striking, antique bronze lifts the ambiance with a touch of texture.

PVD COPPER

A velvety effect that goes well with contemporary and industrial styles.

PVD SATIN GOLD

Classic, warm and bold, satin gold has that unique “je ne sais quoi” to make it stand out.

PVD GUN METAL

Inspired by rifle barrels with a sheen that’s not quite matte and not quite shiny, gunmetal faucets add an interesting touch to any design, particularly when paired with industrial elements.

PVD BRUSHED NICKEL

Popular for its “stainless steel” appearance, PVD Brushed Nickel creates a sophisticated and cool look that hides fingerprints and water spots.

TOUCH-FREE ELECTRONIC FAUCETS

1-26

Our touch-free electronic products are operated by an infrared (IR) sensor technology which allows activation without touching the product. This eliminates a potential source of cross contamination and spread of germs.

The combination of our faucets and soap dispensers provide a perfect, clean, automated and germ-free environment at public restrooms.

SINTRA TWINS

NEW

ELECTRONIC LAVATORY FAUCET AND SOAP DISPENSER
OPERATED BY IR SENSOR

SPECIFICATIONS

Touch-free deck-mounted electronic faucet and soap dispenser in a single unit that are activated by concealed sensors built into the spouts.

ABOUT THE FAUCET: For cold or premixed water. Activated by concealed sensors built into the spout. Filter included. Powered by 12V transformer (battery operated version available upon request.) The following functions can be performed using the optional remote control: faucet sensor range, security time, delay in, delay out, on-off and reset to factory settings.

ABOUT THE SOAP DISPENSER: Closes automatically without dripping. Includes a 1 liter soap bottle and bottle support for the soap dispenser. Powered by 12V transformer (battery operated version available upon request.) Peristaltic pump that allows the use of any kind of liquid soap, detergent or antibacterial gel. The following functions can be performed using the optional remote control: Soap quantity selection, soap tank refill, temporary off and back to factory settings.

OPERATION & APPLICATION

The SINTRA TWINS unit is suitable for commercial restrooms where there is only one deck opening at the basin. The touch free faucet and soap dispenser unit is automatically activated when users place their hands in the relevant sensor range and stops when the users remove their hands. Easy installation and great for retrofit where drilling a new basin opening is not an option. Long lasting even in the harshest installation sites. Helps washrooms stay clean and saves water and soap. Prevents cross contamination. Combines an elegant design with vandal-resistant features. Ideal for offices, hotels and restaurants and all commercial restroom environments.

PICTURE	PRODUCT NAME	MODEL FEATURES	POWER SUPPLY	CODE NUMBER	DRAWING
	SINTRA TWINS	Faucet powered with IP67 dual power input box that allows the product to be used with 9V battery as an option. If the faucet is powered by 9V battery, the soap dispenser can be powered either by battery (with battery box for SD - optional upon request), or with 12V transformer supplied with the product.	12V transformer	KSL01023	

TECHNICAL DATA	
Installation	Deck mounted
Material	Chrome plated brass, other finishes available.
Water supply	Cold or premixed water
Flow restrictor	0.5 GPM / 1.89 LPM - PCA spray 1.0 GPM / 4 LPM - PCA spray
Security time	The faucet will automatically shut off after a 90 seconds flow time has passed. Adjustable with the remote control.
Operating water pressure	0.5 - 8.0 bar
Power source options	12 V transformer, battery upon request
Soap Dose	Soap Dispenser : Factory setting for 0.7 to 0.9 cc depending on the selected soap. The soap quantity can be changed using the remote control for soap dispensers. Delivers liquid soap. 1 liter soap bottle.

SINTRA SERIES

NEW

DECK-MOUNTED TOUCH-FREE LAVATORY FAUCET

SPECIFICATIONS

Touch-free deck-mounted electronic faucet. Chrome plated body, other finishes available. Activated by concealed sensor built into the spout. Filter included. Sensor includes a low battery indicator. Adjustable settings by remote control: sensor range, security time, delay in, delay out, on-off and reset to factory settings.

It features a IP67 dual power input box that allows the faucet to be used with 9 V battery or 9 V transformer. It can be powered by a 9 V transformer and an integrated back-up system to be used with a 9 V lithium battery enabling the faucet to be used normally in case of power failure.

OPERATION

Touch-free electronic faucet. The faucet is automatically activated when users place their hands in the sensor range and stops when the users remove their hands.

APPLICATION

Combining an elegant design with vandal-resistant features. Easy installation. Long lasting even in the harshest installation sites. Helps washrooms stay clean and saves water. Prevents cross contamination. Ideal for offices, hotels and restaurants.

MORELLA SERIES

WALL-MOUNTED TOUCH-FREE LAVATORY FAUCET

FEATURES:

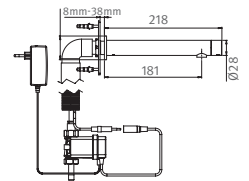

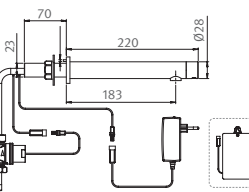

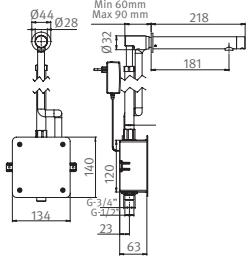

- 100 % chrome plated brass body, other finishes available upon request
- Operated by IR sensor.
- Low battery indicator
- Anti-rotation pin for extra robustness at heavy duty locations
- For plaster or dry walls as well as brick or concrete walls
- Available in Stainless Steel AISI316 body upon request

ADVANTAGES:

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Modern, uncompromisingly minimalistic with no disruptive elements
- Sensor settings adjustable by remote control
- Easy installation
- Matching IR operated soap dispenser

OPTIONS:

- Remote control

PICTURE	PRODUCT NAME	MODEL FEATURES	POWER SUPPLY	CODE NUMBER	DRAWING
	MORELLA	Concealed installation in dry walls as well as concrete, brick walls. Dual power input box. When powered by a 9V transformer features an integrated backup system to be used with a 9V Lithium Battery, which enables the product to be used normally in case of a power failure. PETRA Q

WALL-MOUNTED TOUCH-FREE LAVATORY FAUCET

FEATURES:

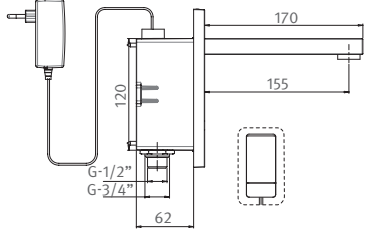

- 100 % chrome plated brass
- IR sensor
- Low battery indicator
- For concrete or brick walls

OPTIONS:

- Remote control

ADVANTAGES:

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Concealed installation, all components inside the box which makes it serviceable from the front.
- Sensor settings adjustable by remote control
- Matching flush valves for toilets and urinals
- Easy installation

TOUCH-FREE ELECTRONIC SOAP DISPENSERS

27-42

Kassel Introducing the Touch-free soap dispenser. This innovative dispenser is designed to provide a clean and convenient way to dispense soap.

Our Touch Free Soap Dispenser dramatically reduces soap costs by allowing the use of non-proprietary soap, enabling facility managers to choose any soap supplier. It also prevents germs from spreading with no physical contact, providing a hygienic solution. Precise soap dosage ensures the exact amount for effective hand washing and is adjustable with remote control options. This touch-free solution is further enhanced with Kassel matching IR-operated faucets, reducing water consumption and providing a complete, touch-free bathroom experience. The peristaltic pump technology prevents clogging, ensuring ease of use. The touch-free soap dispensers is easy to install and refill.

The Touch-free Soap Dispenser is the perfect solution for increasing hygiene, reducing waste, and enhancing the user experience.

SINTRA SOAP DISPENSER SERIES

NEW

DECK-MOUNTED TOUCH-FREE ELECTRONIC SOAP DISPENSER FOR NON-PROPRIETARY SOAP

SPECIFICATIONS

Touch-free electronic soap dispenser for deck-mounted installations. Activated by concealed sensor built into the spout . For use with any non-proprietary soap. Chrome plated body, other finishes available. Includes a 1 liter soap bottle and bottle support or 6 liter tank . With a designated peristaltic pump that prevents clogging and back flow. Adjustable settings by remote control: soap quantity, soap tank refill, temporary off and reset to factory settings.

OPERATION

Closing automatically without dripping, the Sintra touch free soap dispenser helps ensure hygiene and cleanliness in commercial restrooms. Combined with the Sintra touch free electronic faucet, it creates a complete germ-free and automated environment.

APPLICATION

The soap dispenser is activated automatically when the users bring their hands within the sensor range and stops when the users remove their hands.

MIRANDA SOAP DISPENSER SERIES

DECK-MOUNTED TOUCH-FREE ELECTRONIC SOAP DISPENSER FOR NON-PROPRIETARY SOAP

FEATURES:

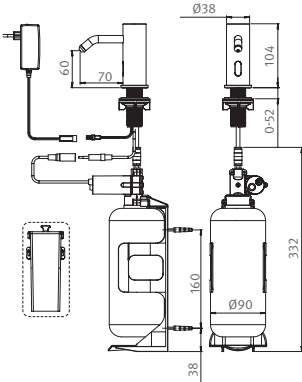

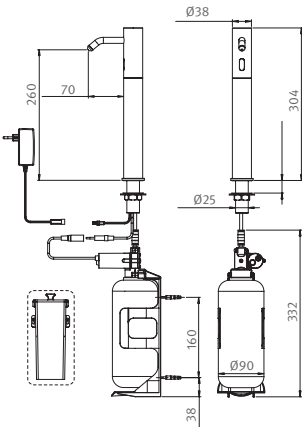

- 100% chrome plated brass body
- IR sensor
- Peristaltic pump

OPTIONS:

- One (1) liter soap bottle
- Six (6) liter soap tank
- Multiple soap dispensers installation (up to six (6) dispensers) with a single six (6) liter tank
- Matching IR operated faucet
- Remote control
- Optional anti-rotation pin for extra robustness at heavy duty locations

ADVANTAGES:

- Drastically reduces soap consumption
- Cross contamination protection - no physical contact
- Clog and backflow prevention - with designated peristaltic pump
- Accurate soap dosage - adjustable by remote control
- Maximized savings - can be used with any non-proprietary soap
- Easy to install and refill

MIRANDA N WALL SOAP DISPENSER SERIES

DECK-MOUNTED TOUCH-FREE ELECTRONIC SOAP DISPENSER FOR NON-PROPRIETARY SOAP

FEATURES:

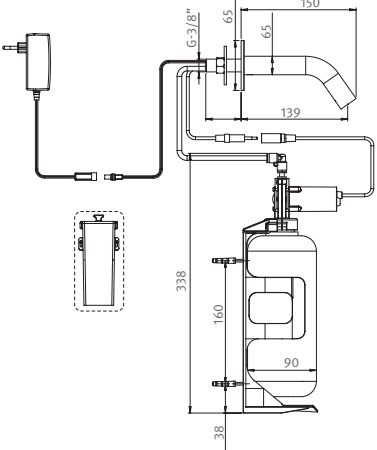

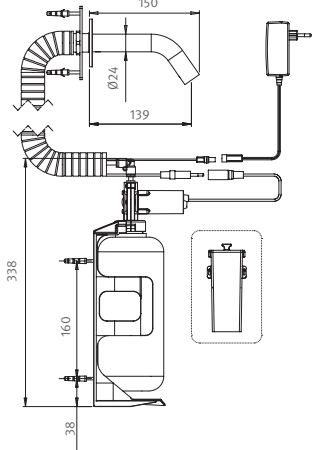

- 100 % chrome plated brass body
- IR sensor
- Concealed sensor integrated into the spout
- Peristaltic pump
- Stainless steel AISI316 spout available

OPTIONS:

- One (1) liter soap bottle
- Six (6) liter soap tank
- Multiple soap dispensers installation (up to six (6) dispensers) with a single six (6) liter tank
- Matching IR operated faucet
- Remote control

ADVANTAGES:

- Drastically reduces soap consumption
- Cross contamination protection - no physical contact
- Clog and backflow prevention - with designated peristaltic pump
- Accurate soap dosage - adjustable by remote control
- Maximized savings - can be used with any non-proprietary soap
- Easy to install and refill
- Highly durable - for heavy traffic locations

PETRA SOAP DISPENSER SERIES

DECK-MOUNTED TOUCH-FREE ELECTRONIC SOAP DISPENSER FOR NON-PROPRIETARY LIQUID / FOAMING SOAP

FEATURES:

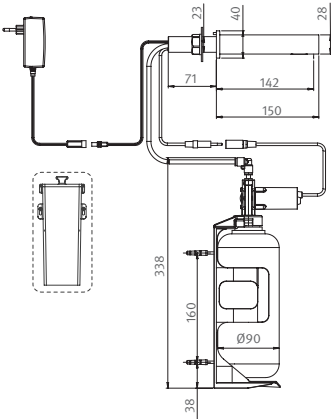

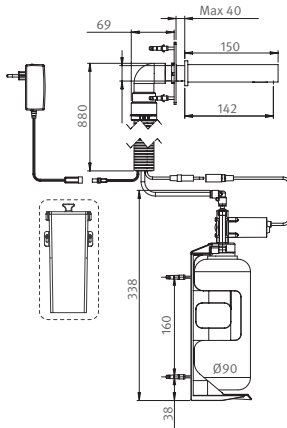

- 100 % chrome plated brass body
- IR sensor
- Peristaltic pump
- Anti-rotation pin for extra robustness at heavy duty locations

OPTIONS:

- One (1) liter soap bottle
- Six (6) liter soap tank
- Multiple soap dispensers installation (up to six (6) dispensers) with a single six (6) liter tank
- Matching IR operated faucet
- Remote control

ADVANTAGES:

- Drastically reduces soap consumption
- Cross contamination protection - no physical contact
- Clog and backflow prevention - with designated peristaltic pump
- Accurate soap dosage - adjustable by remote control
- Maximized savings - can be used with any non-proprietary soap
- Easy to install and refill
- Anti-rotation pin for extra robustness at heavy duty locations

PROFESSIONAL SYSTEM

Installation kit for more efficient maintenance of multiple soap dispensers. Saves time and money, can supply up to six soap dispensers from one large capacity 1.6 gallon (6L) tank. Ideal for high traffic areas with multiple hand washing stations in high traffic restrooms. Enables productive refill of multiple soap dispensers through a single top fill unit above deck and an LED indicator that lets maintenance staff know when soap levels are low. Suitable for any foam or liquid soap with the recommended viscosity.

Features:

- Allows multiple soap dispensers installation (up to six (6) dispensers) with a single 1.6 US gallon (6L) tank
- Stainless Steel tank support or lockable underbasin cabinet

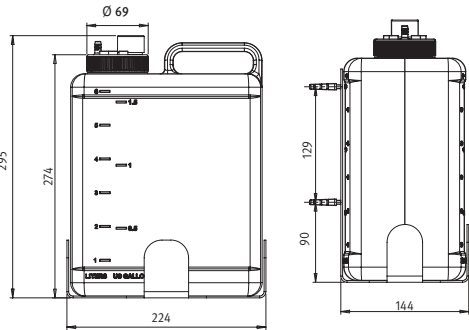

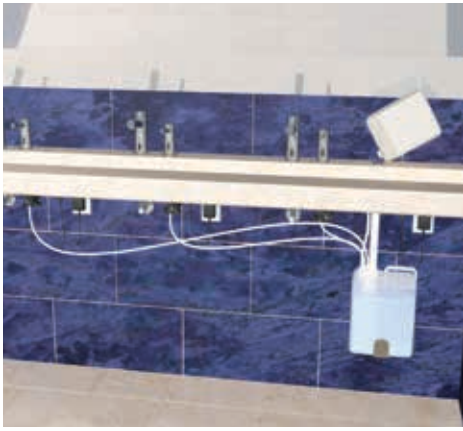

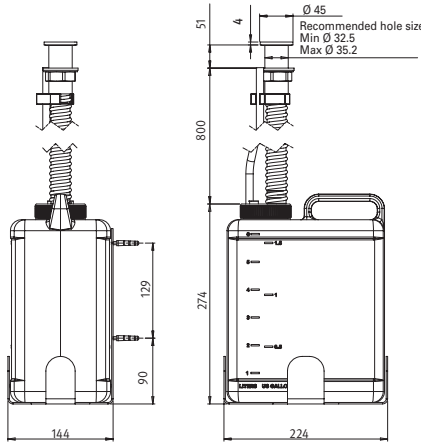

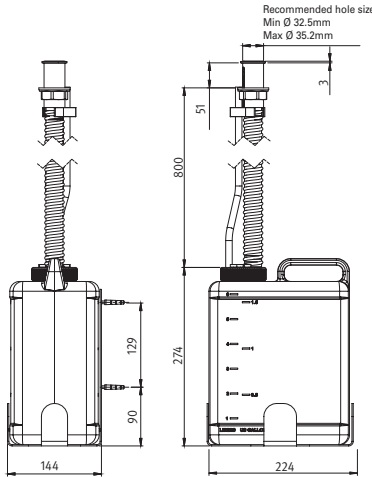

Options:

- Anti-theft top filling brass mechanism for easy refill from the counter top
- Soap level indicator
- Below deck filling mechanism

Advantages:

- Drastically reduces soap consumption
- Cross contamination protection - no physical contact
- Maximized savings - can be used with any non-proprietary soap
- Easy installation
- Fast and simple refill with optional LED indication of soap level
- Highly durable - with optional vandal-resistant top-filling mechanism

MEDICAL SERIES

43-48

The products of our Medical Series have been specially designed for the different needs of the healthcare sector: swivel spouts, tall spouts, thermostatic control for optimum temperature, anti-scalding operation, gooseneck spouts, etc. These features make them ideal for hospitals, laboratories, dental clinics and other healthcare institutions.

ESTELLA SERIES

KSL00130

DECK-MOUNTED TOUCH LAVATORY FAUCET

FEATURES:

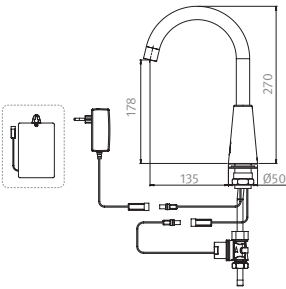

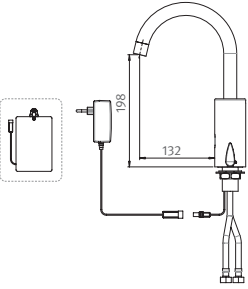

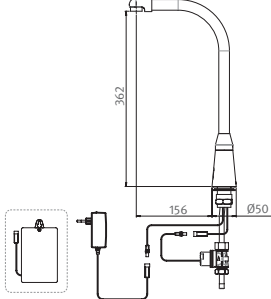

- 100 % chrome plated brass body
- For cold or premixed water / hot and cold water
- IR sensor
- Low battery indicator

OPTIONS:

- Remote control

ADVANTAGES:

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Sensor settings adjustable by remote control
- Easy installation
- Ideal for health care institutions, hospitals, clinics and nursing homes

PICTURE	PRODUCT NAME	MODEL FEATURES	POWER SUPPLY	CODE NUMBER	DRAWING
	ESTELLA	For cold or premixed water	Battery box for 6 x 1.5 V AA alkaline batteries or 9V Transformer	KSL00130	
	ESTELLA DÚO	Mixer to adjust water temperature For hot and cold water	Battery box for 6 x 1.5 V AA alkaline batteries or 9V Transformer	KSL00140	
	ESTELLA LAB	Mixer to adjust water temperature For cold or premixed water	Battery box for 6 x 1.5 V AA alkaline batteries or 9V Transformer	KSL00144	

TECHNICAL DATA	
Water temperature	Cold or premixed water
Flow restrictor	6 l/min. 1.89 l/min and other options available
Security time	The faucet will automatically shut off after a 90 seconds flow time has passed Adjustable with the remote control
Operating water pressure	0.5 - 8.0 bar
Power source options	• Battery box for 6 x 1.5 V AA alkaline batteries • 9 V transformer

GUARDA SERIES

KSL00310

WALL-MOUNTED TOUCH LAVATORY FAUCET

FEATURES:

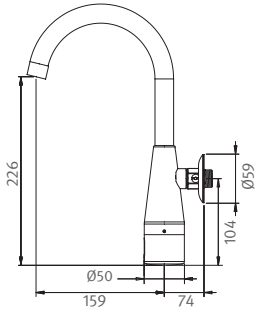

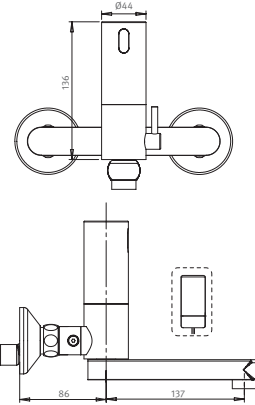

- 100 % chrome plated brass body
- IR sensor
- Internal solenoid valve and battery
- Low battery indicator

OPTIONS:

- Remote control

ADVANTAGES:

- Drastically reduces water consumption
 - No physical contact. Helps to protect users against cross contamination
 - Sensor settings adjustable by remote control
 - Easy installation
 - Ideal for health care institutions, hospitals, clinics and nursing homes.
- Ideal for retrofit installations and bucket sinks

PICTURE	PRODUCT NAME	MODEL FEATURES	POWER SUPPLY	CODE NUMBER	DRAWING
	GUARDA	For cold or premixed water	Internal 9 V lithium battery	KSL00310

TECHNICAL DATA	
Water temperature	Cold or premixed water / Hot & cold water
Flow restrictor	6 l/min. 1.89 l/min and other options available
Security time	The faucet will automatically shut off after a 90 seconds flow time has passed Adjustable with the remote control
Operating water pressure	0.5 - 8.0 bar
Power source options	Internal 9 V lithium battery

BESALÚ

DECK-MOUNTED TOUCH LAVATORY FAUCET

FEATURES:

- 100 % chrome plated brass body
- For cold and hot water
- IR sensor
- Internal solenoid valve and battery
- Thermostatic control for optimum temperature
- Internal stopper allows setting the maximum temperature according to the project requirements

OPTIONS:

- Remote control

ADVANTAGES:

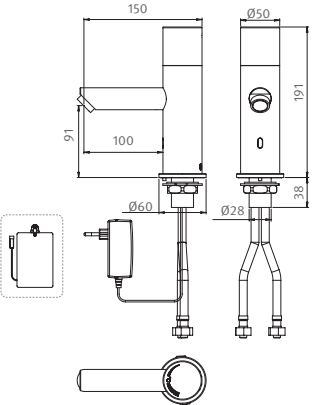

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Sensor settings adjustable by remote control
- Easy installation
- Ideal for health care institutions,hospitals, clinics and nursing homes, industrial kitchen

Hot limit stopper - Mechanical mechanism for built in maximum temperature control at 48.9°C , factory set. Other values available upon request

Comfort stop - Allows limiting the hot water temperature the user can reach, from 38°C to 48.9°C.

Fixed temperature - Allows the technical staff to set a stable temperature and fix the faucet cap to the specific temperature only.

THERMA SERIES

WALL-MOUNTED TOUCH LAVATORY FAUCET

FEATURES:

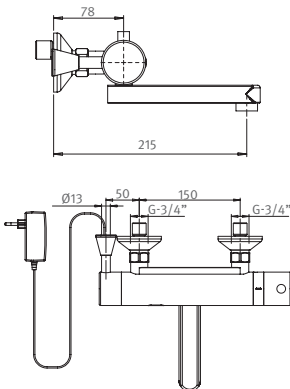

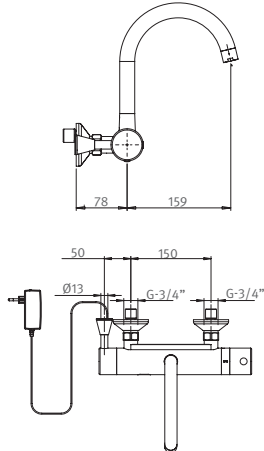

- 100 % chrome plated brass body
- For cold and hot water
- IR sensor
- Internal solenoid valve and battery
- Thermostatic control for optimum temperature
- Swivel spout

OPTIONS:

- Remote control

ADVANTAGES:

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Activated by wave on-off infrared sensor.
- Sensor settings adjustable by remote control
- Easy installation
- Ideal for health care institutions,hospitals, clinics and nursing homes, industrial kitchen
- Ideal for retrofit installations

ESPEJO PRODUCTS

49-54

Intelligent solutions for innovative commercial washrooms.

Designed to be installed behind the mirror for no interference with the design, the ESPEJO series preserves the clean look of the washroom with its minimalistic design and smart concealed installation. All the products of this line are hidden behind the washroom mirror, which is even included in some of the products. The result is a touchless, germ-free elegant space.

CONJUNTO ESPEJO

- Complete sanitary cabinet with a lockable mirror.
- Includes high speed hand dryer, mixing valve, touch free faucet, touch free soap dispenser and LED pictograms for intuitive user guidance and decoration. Other measures available upon request
- Delivered with remote controls to adjust soap dosage, select light color or sequence and customize the faucet settings.
- Eliminates messy, slippery floors and hand drying queues
 - Reduces the amount of labor for commercial facilities maintenance

ESPEJO MODULE

Complete system including high speed hand dryer, thermostatic mixing valve, touch free faucet, liquid soap dispenser and optional soap level indicating light

- Ready to be integrated behind the mirror for a clear, minimalistic design
- Eliminates messy, slippery floors and hand drying queues
- Reduces the amount of labor for commercial facilities maintenance
- Easy installation with a stainless steel frame to be fixed to the wall
- Ideal touch free soap-water-air cycle
- Helps prevent cross contamination
- Reduces water and soap consumption
- To be used with non-proprietary soap
- Drying time: less than 15 seconds

Complete system including high speed hand dryer (1), thermostatic mixing valve (2), touch free faucet (3) liquid soap dispenser (4) and optional soap level indicating light (5)

TAILORED TO YOUR NEEDS:

The Espejo Module complete version includes a touch free soap or foam dispenser, faucet, thermostatic mixing valve and hand dryer. Each component can be delivered individually with any combination you prefer.

Modular system including touch free faucet (3) and liquid soap dispenser (4) and optional soap level indicating light (5)

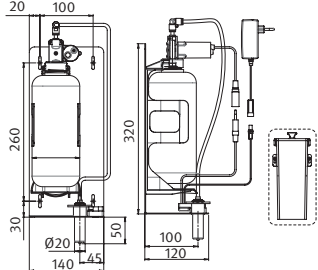

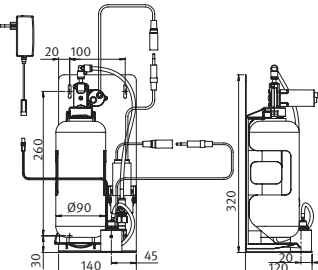

Modular system including thermostatic mixing valve (2), touch free faucet (3) and liquid soap dispenser (4) and optional soap level indicating light (5)

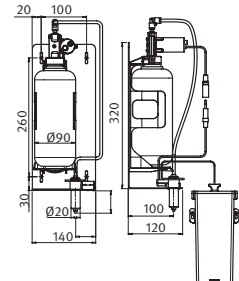

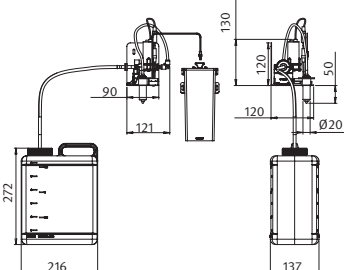

ESPEJO SOAP DISPENSER SERIES

Touch free electronic soap dispenser for integration behind the mirror

- Drastically reduces soap consumption
 - No physical contact. Helps to protect users against cross contamination
 - Peristaltic pump. The soap is driven inside the soap tube without contact with the pump, preventing contamination and back flow
- Accurate soap dosage
 - To be used with non-proprietary soap for maximum savings
 - Easy to install and refill
 - Matching IR operated faucet

ESPEJO SOAP DISPENSER VERSIONS					
PICTURE	PRODUCT NAME	MODEL FEATURES	POWER SUPPLY	CODE NUMBER	DRAWING

HAND DRYERS

55-56

Intelligent solutions for Innovative commercial washrooms.

Our SM line features deck-mounted and wall-mounted hand dryers which combine high speed operation with a high quality and a sleek, vandal-resistant design. Their installation above deck avoids the uncomfortable water dripping on the floor and counters, contributing to a clean, tidy and germ-free environment.

SM SERIES

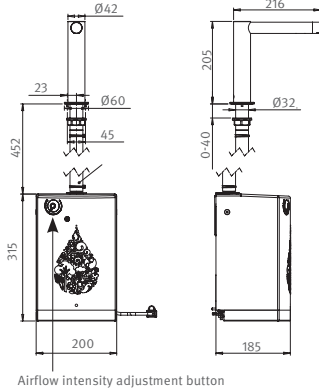

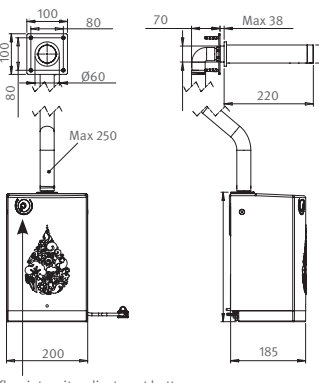

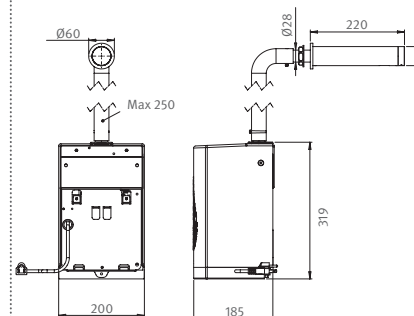

TOUCH-FREE ELECTRONIC HAND DRYERS

FEATURES:

- Electronic deck/wall mounted hand dryer operated by IR sensor
- Touch free electronic hand dryer for deck mounted installations.
- Powered by 110V-120/220V-240Vac.
- Hand dryer will automatically shut off after being used for more than 60 seconds. Sensor settings can be customized by remote control.
- Includes motor and heater thermal protection in case of overheating.

ADVANTAGES:

- HEPA filter for added hygienic properties
- Full brass body or stainless steel 316 material
- Variety of colors and special finishes available
- Matching touch free faucet and soap dispenser
- Long lasting, durable and vandal resistant
- Air flow intensity adjustable by external button
- Adjustability with remote control: security time, detection range, delay out
- On/Off function to perform cleaning

OTHER SPECIAL SANITARY PRODUCTS
CONTACT PRODUCTS

57-68

For environments where sensor products are not convenient and contact products are required, Kassel also offers a line of touch solutions which includes two product families:

- ELECTRONIC: our contact products operated by piezoelectric technology
- SELF-CLOSING: our more traditional mechanical self-closing products.

ELECTRONIC CONTACT PRODUCTS

MIRANDA CONTACT SERIES

DECK-MOUNTED TOUCH LAVATORY FAUCET

FEATURES:

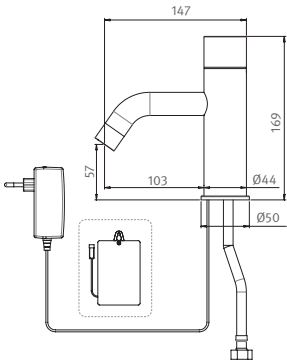

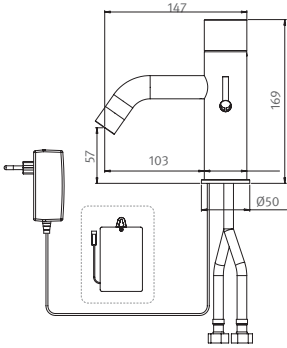

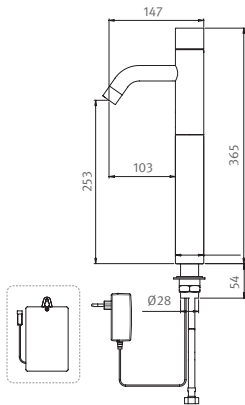

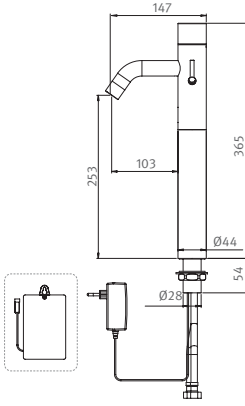

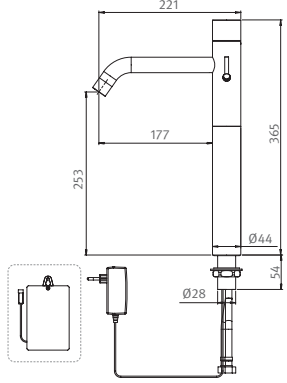

- 100 % chrome plated brass body
- For cold or premixed water or hot and cold water
- Piezoelectric technology
- Internal solenoid valve

ADVANTAGES:

- Drastically reduces water consumption
- No moving parts, ideal for heavy duty areas
- No hold-open feature
- More possibilities to save water: the water flow can be stopped in the middle of the cycle
- Stable and accurate water flow that can be changed on site
- Easy installation
- Matching IR operated soap dispenser

FROST SERIES

ELECTRONICALLY OPERATED TOUCH SELF-CLOSING GLASS FILLER FAUCET

ADVANTAGES:

- Drastically reduces water consumption
- No moving parts, ideal for heavy duty areas
- Non hold open feature
- Lead free
- Easy touch activation to allow use by young children, elderly and disabled people
- Ideal for drinking fountains, coolers and water stations
- Stable and accurate water flow that can be changed on site to fill in a specific glass or bottle size
- Designed for bars, restaurants and commercial food service kitchens
- Easy installation
- Long reach spout

PICTO

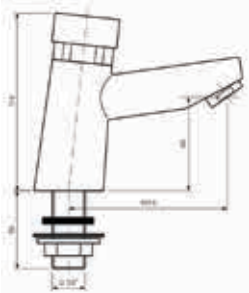

SELF-CLOSING FAUCET

FEATURES

- Big push button
- Push actuation not affected by water pressure
- Vandal-proof full metal body
- Inner system mostly maintenance free
- Individual flow time adjustment: 3 - 12 sec.
- Verified acc. EN 816 / BS 5412 (200.000 pushes)
- Approval No. P-IX 19809 / I0
- DVGW Reg.Nr. NW-6508C0o231

TECHNICAL DETAILS

- Push-button operated (full brass)
- Water pressure: 0.5 - 5 bar
- Flow rate: ca. 6 l/min
- Single hole connection 1/2"
- Weight: 900 g.
- Scope of delivery: nut with fealing, Centering ring, aerator

PICTURE	PRODUCT NAME	MODEL FEATURES	CODE NUMBER	DRAWING
	PICTO	For cold or premixed water	KSL00506	

TECHNICAL DATA	
Installation	Deck-mounted
Water temperature	70°C Maximum
Operating water pressure	0.5-8.0 bar / 7.0-116.0 psi
Water flow cycle	15 seconds, adjustable on site

VENTIL

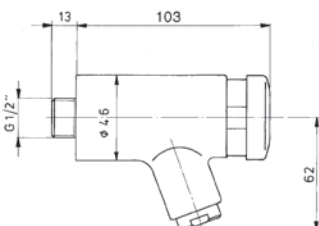

SELF-CLOSING FAUCET

FEATURES

- For cold / pre-mixed water
- Push actuation not affected by water pressure
- Vandal-proof metal body
- Suitable for dispensing drinking water in public places
- All components replaceable (without disassembly)
- Certified acc. EN 816 / BS 5412 (200.000 pushes)

TECHNICAL DETAILS

- Water pressure: 0.5 - 5 bar
- Flow rate: ca. 6 l/min
- Individual flow time adjustment: 3 - 12 sec.
- Wall connection 1/2"
- Weight: 900 g
- Scope of delivery: aerator or steam device

PICTURE	PRODUCT NAME	MODEL FEATURES	CODE NUMBER	DRAWING
	VENTIL	For cold or premixed water Wallmounted Self Closing Tap 1/2"	KSL00507	
	VENTIL Stream Device	For cold or premixed water Wallmounted Self Closing Tap 1/2" with stream device	KSL00508	

TECHNICAL DATA	
Installation	Wall-mounted
Water temperature	70°C Maximum
Operating water pressure	0.5-8.0 bar / 7.0-116.0 psi
Water flow cycle	15 seconds, adjustable on site

FLUSH VALVE FOR TOILET WITH CONTROL PANEL

SELF-CLOSING WC FLUSH VALVE

FEATURES

- Easy installation (concealed)
- Galvanized installation box
- 2-steps push button
- Push actuation not affected by water pressure
- Connection: left / right / back side
- Matching cover plate:
Concealed Control Panel 145 x 190 mm, stainless steel
(incl. fixation kit, 2-step flushing 3/6 l)

TECHNICAL DETAILS

- Water pressure: 1.2 - 0.5 bar
- Flush rate: 3 l inner button / 6 l outer button
- Automatic flow regulator
- Installation box depth: 109 mm (+ 50 mm compensation)

PICTURE	PRODUCT NAME	MODEL FEATURES	CODE NUMBER	DRAWING
	WC FLUSH VALVE	Concealed WC Flush Valve 1" (DN25)	KSL8952000	
	CONTROL PANEL WC FLUSH VALVE	Concealed Control Panel 145 x 190 mm, stainless steel (incl. fixation kit, 2-step flushing 3/6 l)		

MANUAL CISTERN FOR TOILET

FEATURES & TECHNICAL DETAILS

Complete Pre-Installed WC Cistern with Support Frame

- Easy installation (concealed)
- Welded, self-supporting frame element
- Incl. pre-installed cistern
 - Insulation against condensation
 - Connection: top / back side
 - Dual flush (3 - 6/9 l)
 - Without control panel
- Powder coated square bar (40 x 40 mm)
- Measurements: 1120 mm (H) x 510 mm (W) x 125 - 230 mm (D)
- Weight: 14,2 kg
- Scope of delivery: cistern element, WC connection kit, fixation materials, masonry aid, discharge elbow PE 90 mm (with reducer to 110 mm)

PRODUCT NAME	MODEL FEATURES	CODE NUMBER	DRAWING
MANUAL CISTERN FOR TOILETS	Dry Construction WC Cistern Element 1/2" Mounting frame included	KSL895700C	
PUSH PLATE	165 x 247 mm Matt chrome, polished chrome, black, white, and other finishes available. For dual flush (incl. fixation kit)		

SHOWER CONTROLS

69-78

IR sensor or piezoelectric, shower control or shower panel, for cold or premixed water or thermostatic controlled hot and cold water, our showers provide the user with a comfortable experience, combining water conservation with a germ-free environment in public showers.

ÁMBAR

ELECTRONIC SHOWER CONTROL

FEATURES:

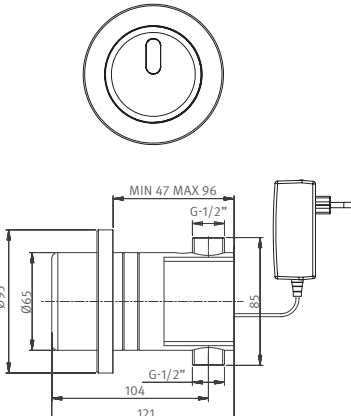

- 100% chrome plated brass body
- For cold or premixed water
- Internal solenoid valve, sensor and battery
All the parts are accesible from the front
- Low battery indicator

OPTIONS:

- Remote control

ADVANTAGES:

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Sensor settings adjustable by remote control

PICTURE	PRODUCT NAME	MODEL FEATURES	POWER SUPPLY	CODE NUMBER	DRAWING
	ÁMBAR	<p>Concealed installation in concrete or brick walls</p> <p>Allows activation of the shower once the user places their hands at a close proximity to the sensor. Water will shut off if the users place their hands at a close proximity to the sensor again or once a factory set flow time of 120 seconds will pass. Flow time is adjustable by remote control.</p> <p>Optional Prox Operation: Allows automatic activation when the user comes within the sensor range, and stops when the user leaves the sensor range.</p>	Internal 9V battery or 12V Transformer	KSL00720	

TECHNICAL DATA	
Installation	Concealed in concrete, brick walls
Material	Chrome plated brass
Water temperature	Cold or premixed water
Sensor range	Configured. Can be adjusted manually or using the remote control.
Low battery indicator	LED in the sensor will blink when the user enters the sensor range
Operation	Allows activation of the shower once the user places their hand at a close proximity to the sensor Water will shut off if the user places their hand at a close proximity of the sensor again or once a factory-set flow time of 2 minutes passes The flow time is adjustable on site by remote control
Operating water pressure	0.5 - 8.0 bar
Power source options	<ul style="list-style-type: none">• Internal 9V lithium battery• 9V transformer

ÁMBAR CONTACT

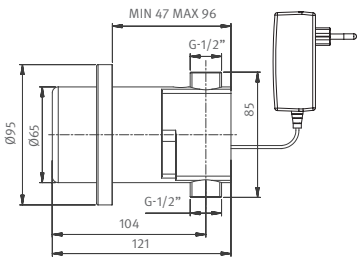

ELECTRONIC SELF-CLOSING SHOWER CONTROL OPERATED BY TOUCH

FEATURES:

- 100 % chrome plated brass
- Piezoelectric button in the shower control
- Non-hold-open feature

ADVANTAGES:

- Drastically reduces water consumption
- No moving parts, ideal for heavy duty areas
- More possibilities to save water: the water flow can be stopped in the middle of the cycle
- Stable and accurate water flow that can be changed on site
- Easy installation

PICTURE	PRODUCT NAME	MODEL FEATURES	POWER SUPPLY	CODE NUMBER	DRAWING
	ÁMBAR CONTACT	Concealed installation in concrete or brick walls	Internal 9V battery or 12V Transformer	KSL00830	

TECHNICAL DATA	
Installation	Concealed in concrete, brick walls
Material	Chrome plated brass
Water temperature	Cold or premixedt water
Operation	When a user touches the designated area in the middle of the piezo button, a flow cycle of 2 minutes is completed. If the user does not need more water, they can touch the designated area again to stop the water flow before the default flow time has passed
Operating water pressure	0.5 - 8.0 bar
Power source options	<ul style="list-style-type: none">• Internal 9V lithium battery• 9 V encapsulated transformer

CORELLA DÚO

ELECTRONIC SELF-CLOSING SHOWER CONTROL

FEATURES:

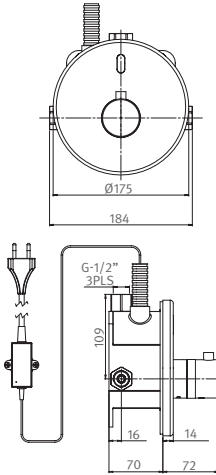

- Metallic panel and thermostatic handle
- For cold and hot water
- Thermostatic control for optimum temperature and scalding prevention
- IR sensor
- Low battery indicator

OPTIONS:

- Remote control

ADVANTAGES:

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Sensor settings adjustable by remote control
- Includes double boxing and piping, so any potential leaks drain into the shower compartment

PICTURE	PRODUCT NAME	MODEL FEATURES	POWER SUPPLY	CODE NUMBER	DRAWING
	CORELLA DÚO	Concealed installation in concrete, brick walls. Thermostatic mixing handle to adjust water temperature Allows activation of the shower once the user places their hand at a close proximity to the sensor. Water will shut off if the user places their hand at a close proximity to the sensor again or once a factory set flow time of 120 seconds will pass. The flow time is adjustable on site by remote control. Optional Prox Operation: Allows automatic activation when the user comes within the sensor range, and stops when the user leaves the sensor range.	Internal 9V battery or 12V Transformer	KSL00710

CORELLA CONTACT SHOWER PANEL SERIES

ELECTRONIC SELF-CLOSING SHOWER PANEL OPERATED BY TOUCH

FEATURES:

- Aluminium panel with Epoxy coating for high corrosion resistance
- Piezoelectric button in the panel
- Non-hold-open feature
- Provided shower head includes built-in silicon nozzels for easy cleaning
- Default top inlet installation with options for rear inlet installation

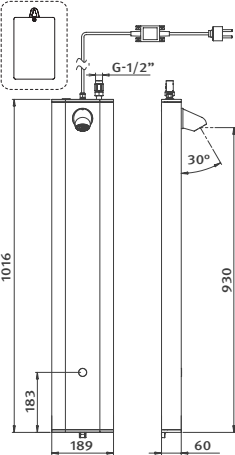

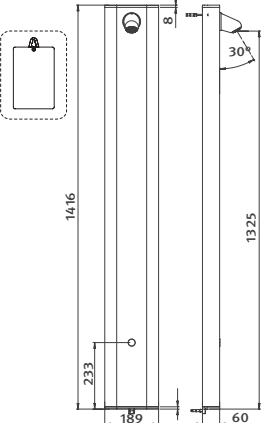

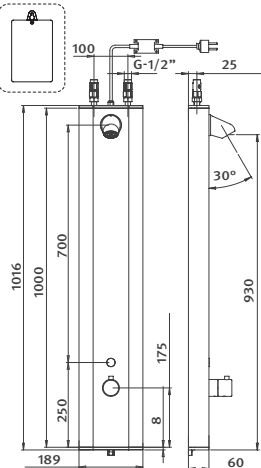

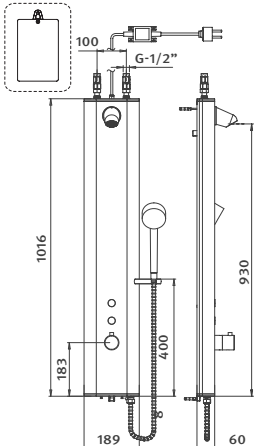

ADVANTAGES:

- Drastically reduces water consumption
- No moving parts, ideal for heavy duty areas
- Provides a retrofit solution for old shower systems; conceals damages and prevents the need of replacing tiles
- More possibilities to save water: the water flow can be stopped in the middle of the cycle
- Stable and accurate water flow that can be changed on site

TECHNICAL DATA	
Installation	Exposed
Material	Aluminium panel with Epoxy coating for high corrosion resistance
Water temperature	Cold or premixed water / Cold and hot water
Operation	When a user touches the designated area in the middle of the piezo button, a flow cycle of 2 minutes is completed. If the user does not need more water, they can touch the designated area again to stop the water flow before the default flow time has passed
Operating water pressure	0.5 - 8.0 bar

CORELLA SH REAR INLET SERIES

KSL00730

SOLID BRASS SHOWER HEAD

FEATURES:

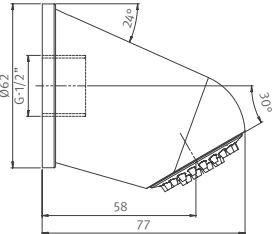

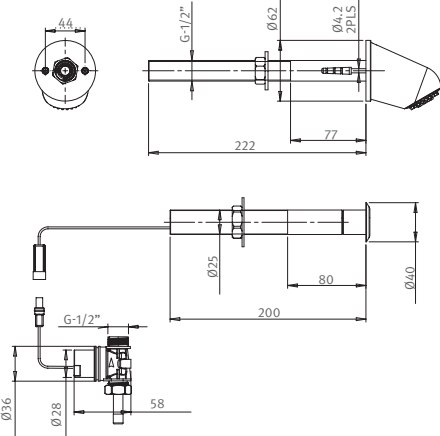

- Solid brass
- Built-in filter
- Silicon nozzels in spray disk for easy cleaning
- Rear inlet

ADVANTAGES:

- Drastically reduces water consumption
- Various flow restricting options available

FEATURES:

- 100 % chrome plated brass
- For cold or premixed water
- Concrete or brick walls

PICTURE	PRODUCT NAME	MODEL FEATURES	CODE NUMBER	DRAWING
	CORELLA SH REAR INLET	Rear inlet	KSL00730	
	CORELLA SH REAR INLET KIT	Includes a shower head and a piezoelectric switch that are incorporated in a brass sleeve	KSL02250	

TECHNICAL DATA	
Installation	Wall mounted rear inlet
Material	Solid brass
Flow restrictor	9 LPM 4 LPM option available
Operation	Combines an elegant design with high quality into a vandal resistant product. Suitable for high traffic locations

FOOT WASH SERIES

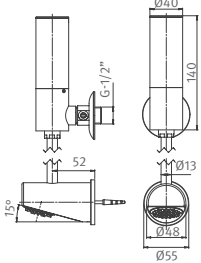

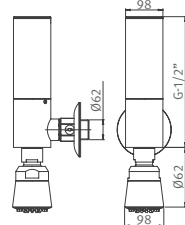

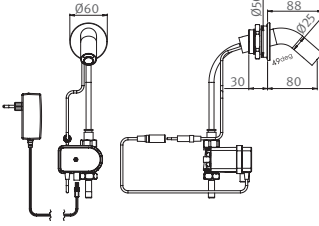

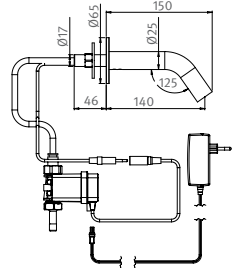

FEATURES:

- 100% chrome plated brass body
- For cold or premixed water
- Piezoelectric button in the cap
- Non-hold open feature
- Silicon nozzles for easy cleaning

ADVANTAGES:

- Drastically reduces water consumption
- No moving parts, ideal for heavy duty areas
- Stable and accurate water flow that can be changed on site
- More possibilities to save water: the water flow can be stopped in the middle of the cycle.
- Easy installation

TECHNICAL DATA	
Installation	Wall mounted on dry or brick walls with access from behind the wall
Material	Chrome plated brass
Water temperature	Cold or premixed water
Operation	Piezoelectric operation: Contact electronic product. When a user touches the piezoelectric element integrated in the foot washer cap, a flow cycle of 8 seconds will be completed. If the user does not need more water, they can touch the designated area to stop the water flow before the default time has passed. IR sensor operation: Touch-free electronic faucet. The faucet is automatically activated when users place their hands in the sensor range and stops when the users remove their hands.
Operating water pressure	0.5 - 8.0 bar
Power source options	9V Battery or 9V Transformer

FLUSH VALVES

79-90

Our range of flush valves, for urinal and toilet, includes different options to choose from: IR sensor or piezoelectric operation, concealed or exposed installation, wall mounted or hung in iron frame for suspended installation. The user can choose a model with a manual override button, or another with a dual flush option for further water saving; all this always combining the user’s comfort with a clean and automated environment.

ALFARO II SERIES

ELECTRONIC FLUSH VALVE FOR URINAL

FEATURES:

- Stainless steel panel
- IR sensor
- 24 hours hygiene flush is included.

OPTIONS:

- Remote control

ADVANTAGES:

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Activated by infrared sensor
- Sensor settings adjustable by remote control
- Easy installation
- Modern, uncompromisingly minimalistic with no disruptive elements

FLAMINGO SERIES

ELECTRONIC FLUSH VALVE FOR TOILET

- FEATURES:
- Rear / Side inlet
 - 100% chrome plated brass body
 - IR sensor
 - Manual override flush activating button
 - Internal solenoid valve and battery
 - 24 hours hygiene flush is included.
 - Includes integral flow regulator, in-line filter, high pressure vacuum breaker and adjustable tail piece

- OPTIONS:
- Remote control
 - Dual flush version available

- ADVANTAGES:
- Drastically reduces water consumption
 - No physical contact. Helps to protect users against cross contamination
 - Activated by infrared sensor.
 - Sensor settings adjustable by remote control
 - Easy installation
 - Modern, uncompromisingly minimalistic with no disruptive elements

ACCESSORIES

91-95

Our accessories provide a better experience with the comfort of use: our remote controls for electronic soap and foam dispensers as well as the remote control for the rest of the IR sensor products, simplify the change of the settings to adjust them to the specific installation. Mixing valves and other accessories available.

REMOTE CONTROLS

REMOTE CONTROL

Allows easy maintenance of extensive installations requiring custom settings. The remote control allows adjustment of sensor features for all Kassel electronic products, while some functions require a compatible product model:

- Sensor range
 - Entrance to the self-adjustment mode
 - Security time
 - Short flow time
 - Flow time
- Delay in
 - Delay out
 - 24 hour hygiene flush
 - Lock out time
 - Temporary off
 - Reset

Ref: [KSL01030](#)

SOAP & WATER REMOTE CONTROL

In addition to the possibility to change settings at liquid or foam soap dispensers, this remote control allows to change settings at Kassel matching touch free faucets. The following functions and settings can be changed:

- Sensor range
 - Soap quantity in foam Soap Dispensers
 - Entrance to the self-adjusting mode in wall mounted faucets
- Soap tank refill
 - Temporary shut off
 - Air quantity in foam soap dispensers
 - Reset to factory settings
 - Liquid Soap Quantity 1 - 4

Ref: [KSL01024](#)

LIQUID SOAP DISPENSERS
REMOTE CONTROL

- Adjustable settings:**
- Soap dosage
 - Temporary shutoff function
 - Soap tank refill
 - Reset to factory settings

Ref: [KSL01060](#)

FOAM SOAP DISPENSERS
REMOTE CONTROL

- Adjustable settings:**
- Soap dosage
 - Air quantity
 - Temporary shutoff function
 - Soap tank refill
 - Reset to factory settings

SENSE & SHOW SOLUTIONS FOR TOILETS

Touch free operated flush valve kits for toilet
Electronic modular flush valve for toilet for installation in the wall or panel.
Flushing duration and other settings are adjustable by remote control.

- ADVANTAGES:
- Drastically reduces water consumption
 - No physical contact. Helps to protect users against cross contamination.
 - 100 % brass chrome plated housing
 - Sensor settings adjustable by remote control
 - Easy installation

Hygiene Flush: To maximize hygiene, this product is equipped with a 24-hour duty flush. The flush takes place after 24 hours of no use. Prevents the trap seal from drying out, possible freezing of pipes, and gets rid of potential bacteria in stuck water. This function can be disabled using the remote control.

PICTURE	PRODUCT NAME	MODEL FEATURES	POWER SUPPLY	CODE NUMBER	DRAWING
	SHOW, SENSOR KIT FORTOILET	Suitable for duct concealed installations (plaster walls) Touch free show operation Allows flushing of the toilet once the user places their hands at a close proximity.	9V battery / 9V transformer (not included)	KSL00540	
	SENSE, SENSOR KIT FORTOILET	Suitable for duct concealed installations (plaster walls) Touch free proximity sense operation. Allows automatic activation when the user has left the toilet.	9V battery / 9V transformer (not included)	KSL00560	

SENSE & SHOW SOLUTIONS FOR URINALS

Electronic flush valve kit for urinal.
Flushing duration and other settings are adjustable by remote control.

- ADVANTAGES:
- Drastically reduces water consumption
